

In order to access the Hermitage School District Personal Devices Wireless Network you must have a district user account. Students and most staff are provided a district user account.

To access the HSD-Personal-Devices wifi

1. From your device's wireless settings, click to join the HSD-Personal-Devices SSID.
2. You should immediately be presented with a login prompt. Enter your computer login username and password.
3. You will then be asked to Trust or Accept a certificate. This is required to complete the connection.

At this point your device should be connected to the wireless network.

Notes:

- Internet Access from the HSD-Personal-Devices wireless network is filtered and logged. Violations of the Acceptable Use Policy, signed by each student and staff member, could result in your HSD-Personal-Devices wifi privileges being revoked.
